

Wadham School

A Church of England Community School

"Life in all its fullness" John 10:10

7th January 2025

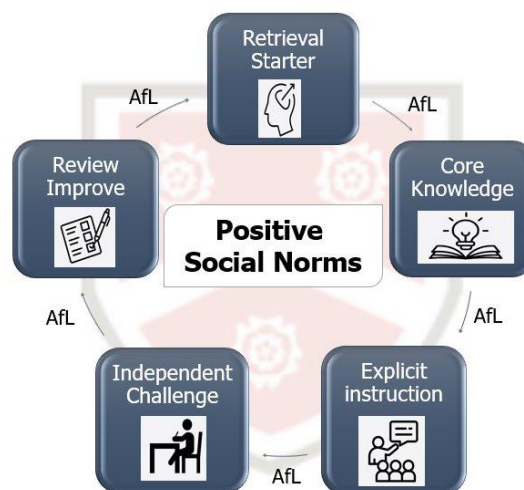

Dear Parents and Carers,

Re: Curriculum Information Term 3 (7th January to 14th February)

You will be aware that Wadham has comprehensive Curriculum Plans in place which map the learning journey in each subject. Wadham leaders and teachers have planned the sequence of learning carefully and review and adjust where necessary on a regular basis. To compliment and support learning and progress, each student receives key information for each term in a Knowledge Organiser. Curriculum Plans and Knowledge organisers can be accessed on our website.

Positive Social Norms are at the heart of our Teaching and Learning cycle. We have worked with our teachers to bring together a greater consistency to the structure of learning at Wadham school. We believe this approach reduces the cognitive load on our students, with all teachers having the same expectations of learning, therefore supporting students to reach their full potential.

We have recognised that students benefit from regularly revisiting previous content so each lesson starts with a **Retrieval Starter**. Last year we introduced **Core Knowledge**. Teachers share the Core Knowledge with students to outline the substantive knowledge which will be applied during the lesson. Lessons then progress with **Explicit Instruction** to enable the learning of new content and then a focus of our learning cycle this year which is **Independent Challenge**. Students can engage with this no matter their prior attainment level. The final part of each lesson allows the opportunity to **Review** and **Improve**. Throughout the lesson **Assessment for Learning (AfL)** will be in place giving the opportunity for teachers to assess the progress of all students in their class.

Yeovil Road, Crewkerne, Somerset. TA18 7NT Telephone 01460 270123
Website : www.wadhamschool.co.uk E-Mail : office@wadhamschool.co.uk

Headteacher: Mr R Burgas
Chair of Governors: Mr C Chapman

From the monitoring that our leaders are carrying out on a regular basis at Wadham and from the views of student's, the learning cycle has become consistent in classrooms. It is our intention to rectify instances where this may not be the case and therefore I encourage parents and carers to be in contact with classroom teachers, subject leaders or the school leaders if there is something that we could address to further improve.

Subject	What will my Year 7 child learn in this subject Term 3?
Art	Colour Theory & its application in Landscapes looking at Andre Derain
Beliefs and Worldviews	Finishing 'The Story of Creation' (Revision and Assessment) then 'The Prophets' – How the Abrahamic tradition developed through the Israelite prophets.
Computing	Essential programming skills in Scratch.
Design	Evaluating the work of themselves and others.
Drama	Storytelling through Mime.
English	The Tempest – Analysing and writing about Shakespeare's techniques in the play.
Food	Protein (meat and plant- based sources) Recipe modification.
French	'Mon temps libre (1)': weather phrases, sports with 'jouer + faire', adverbs of time and frequency, opinions on activities related to technology.
Geography	Oceans- Looking at a global resource from its formation to its sustainable management.
German	'Freizeit – juhu! (1)': weather phrases, sports with 'spielen, machen and gehen', adverbs of time and frequency, opinions on activities related to technology.
History	Medieval Life – What was most important to people in the medieval period: religion, food, health, crime or work.
Maths	Solving problems with addition & subtraction. Solving problems with multiplication & division. Fractions & percentages of amounts.
Music	Understanding notation and Keyboard skills.
Personal Development	Media and self-esteem, Bodies in the media, Managing mental health, Physical activity, Mental health and Nutrition.
Physical Education	Team Building, Dance and Netball.
Science	7C – Muscles & Bone. 7F – Acids & Alkalis.

* Please note: We review and evaluate our learning plans regularly and therefore some changes may be made termly.

Absence and Home-Learning

We understand that it is unavoidable at times for a young person to be absent from school. However, we are keen that the learning and progress of a young person is not hindered by absence. In the majority of cases learning can be completed at home whilst absent from school. This will mean gaps in learning will be less of a

concern when a young person returns to school as soon as possible after an absence.

The expectation is that students work at home and present their work to their class teacher when they return to school, either online or on paper.

Guide to learning at home:

The information outlined in the Term 1 Curriculum Letter and Knowledge Organiser will help students identify the learning being completed in lessons at school this term.

Core Subject Learning Resources:

English - Students who are absent when they are timetabled an English lesson should read the current curriculum topic using our library service:

[Wadham School \(accessit.online\)](https://uk.accessit.online/wdh01/#!dashboard)

<https://uk.accessit.online/wdh01/#!dashboard>

Complete independent work on the curriculum topic(s) using Seneca plus complete and homework set via Teams and on Seneca. www.senecalearning.com.

Log into Sparx Reader and read your allocated book. To find out more about Sparx reader watch <https://www.youtube.com/watch?v=Jq8O-DYTN0w>

Maths - Students who are absent when they are timetabled a Maths lesson should log in to SPARX, go to 'Independent Learning' and complete codes for their current topic. Students can find which code to do by going to their Maths Teams page, then going to the 'files' section and finding a document called 'Sparx codes for each topic'. Sparx will support Maths learning with videos, explanations, written work and questions with answers.

Students also have compulsory homework set on Sparx. Students should make sure this homework is complete and work on the additional XP Boost questions which are updated every week.

Students can also use the wide range of Maths learning websites available online to revisit topics that they have recently covered in lessons or topics that were identified on the curriculum letter or on the knowledge organisers sent earlier in the school year.

Science - Students who are absent when they are timetabled a Science lesson should use the following active learn website to access the online text book and resources. <https://www.pearsonactivelearn.com/app/home>.

To log in : use school email address as the username and all passwords have been set as "Science2024".

This resource provides the textbook used in class so students will be able to find the topics that are identified on the curriculum letter. Further details can be found in the knowledge organiser.

The work set will show up in the 'Tasks' tab at the top of the page and can be repeated as many times as needed. These tasks have been set by Mrs Hazle to link in with the terms work.

All students also have access to their homework on teams. You can access any support needed from your Science teacher by contacting them through Teams.

Extra-curricular activities – Term 3.

	Monday	Tuesday	Wednesday	Thursday	Friday
